IN THE CLAIMS:

Please amend claim 1 as follows:

1. (Amended) A laminated ceramic electronic part
having a [structure in which a] plurality of ceramic layers with
internal electrodes located therebetween, [are disposed so as to
overlap] said internal electrodes overlapping each other via
respective ceramic layers, said internal electrodes and said
ceramic layers defining [within] a ceramic element, [and] said
internal electrodes [are led to] being electrically coupled to
respective terminals on [the] respective opposite [side] sides of
